

**READY FOR THE WEEKEND #603:
"GOLDENEYE" – VENICE, CA
DRIED FLOWER POTPORRI**

Ingredients:

Silica Gel (available at craft/art supply stores)
Fresh flowers such as rose buds, lavender, et

Directions:

- Cover the bottom of a container with 1" Silica Gel (Tupperware works well).
- Place the flowers face up so they are not touching.
- Place the container with the flowers in the microwave on high for 3 minutes.
- Carefully remove the container from the microwave, keeping in mind the container may be very hot.
- Let the flowers cool overnight.
- The flowers are ready to use in the potpourri of your choice.
